

Home Made Air Dry

Supply List:

2 Cups cornstarch

1 Cup white school glue

Bowl for mixing

Optional:

Food coloring or
acrylic paint

Instructions:

1. Put 2 cups of cornstarch in a mixing bowl.
2. Add the glue slowly. Add small amounts of glue to your mixing bowl while stirring. Keep adding glue until the mixture reaches a good consistency. It should end up being about 1 cup of glue.

Note: If it is too dry and clumpy, add more glue. If it is too wet and sticky, add more cornstarch.

Optional:

If you wish to have colored clay you may at this point add food coloring to your clay and mix thoroughly. You may prefer to wait until your clay project is dry to decorate using acrylic paint.
